

CLEANSE

Chlorinated detergent and destainer.

Applications

Cleanse is a universal powder cleaner incorporating chlorine. The chlorine is released as soon as Cleanse is dissolved in water.

Features and Benefits

- Versatile. Cleanse can be used in most applications from sterilizing bed pas to cleaning chopping boards and de staining crockery.
- Economical. A small amount goes a long way resulting in real economy.
- Easy to use. Cleanse dissolves quickly, even in cold water. Just add to water, mix and it is ready to use.
- Can be used safely in food preparation areas.

Use Directions

1. Hospitals

a) Preparation of solution. Each day prepare a fresh solution containing 30 grams of Cleanse for each 5 litres of water. At any time after its preparation, the available chlorine in the solution can be checked by using the test papers from Chemform.

b) Sterilizing bedpans, urinals and sputum pans. Empty contents of the pan, rinse with water and immerse in the Cleanse solution for 1 minute.

c) Isolation areas. Wash the whole area thoroughly with Cleanse solution. Rinse all surfaces.

d) Toilet bowls. Flush the toilet, sprinkle Cleanse onto the bowl, allow to stand 5 to 10 minutes. Using a long handled brush, scrub the entire area. Flush, dry with a clean cloth.

e) Baths and shower recesses. Wet surfaces, sprinkle onto wet surfaces then brush thoroughly with a stiff brush. Rinse with water and allow to dry.

Food Preparation Areas

a) Disinfection of bench tops, trolleys, floors and tiled surfaces. Thoroughly wash the areas with Cleanse solution at strength of 10 grams per litre of warm water.

b) Disinfection of glasses, dishes and eating utensils. Wash dishes with suitable Chemform detergent. Immerse the articles in a solution of 5 grams per litre for not less than two minutes. Ensure that chlorine level is not less than 100 ppm with Chemform test papers.

c) De staining crockery. Use Cleanse at a strength of 20 grams per litre and soak for 10 minutes. Maintain chlorine level at 200 ppm by use of chlorine test papers.

d) Cool rooms. Sweep out the area. Apply a solution of Cleanse at 10 grams per litre. Scrub in with a stiff broom, leave for 20 minutes then rinse with fresh water.

Environmental Statement

- CLEANSE is detergent free
- CLEANSE uses recyclable packaging
- CLEANSE uses waste reduction packaging
- CLEANSE is VOC free

Refer to the Environmental Guide section of our website www.chemform.com.au for more information.
