

FORMSOLVE 64

For manual cleaning of electrical equipment.

DESCRIPTION

For the safe and rapid spray cleaning of electrical equipment to remove oil, grease and carbon dust. Formsolve 64 is an excellent degreaser for cleaning metal parts and electrical motors where water cannot be tolerated and air drying is essential.

FEATURES & BENEFITS

- High flash point – safe to use. Replaces flammable products such as petrol and white spirit.
- Evaporates completely and rapidly. Will not leave residue or film on any surface. Residue on evaporation is less than 0.001%
- Will not corrode metals.
- Will not conduct electricity.
- Very high di-electric strength, 61 KV.
- Does not attack varnishes or electrical tapes.
- Does not contain any ozone depleting chemicals.
- Does not contain methylene chloride.
- Is approved by safety committees and used by:
 - Argyle Diamond Mines
 - Alcoa of Australia Limited
 - Cliffs Robe River Iron Associates
 - Department of Aviation
 - Goldsworthy Mining Limited
 - Hamersley Iron Pty Ltd
 - Mt Newman Mining Co Pty Ltd
 - State Energy Commission
 - Telecom Australia
 - Westrail

CAUTION

Avoid direct contact with the product. Do not breath the fumes. Formsolve 64 should always be used in well ventilated areas. The product should, under no circumstances be used in enclosed areas or in underground pits. The product should not be used in close proximity to open flames or welding.

USE DIRECTIONS

Formsolve 64 should be used as received straight from the drum. It may be applied by non-atomising spray, swab or brush directly onto the surface.

Formsolve 64 is the ideal product for use in large dip tanks. Wherever immersion cleaning is used, such baths should be fitted with close fitting lids and should be located in areas of good ventilation.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. If swallowed, do NOT induce vomiting. Give a glass of water.

If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

If overcome by vapours, remove from contaminated area, keep warm and at rest. Seek medical advice. If breathing abnormally, give respiratory aid.

PACKAGES

25 and 205 litre containers.
