

GUARD

Vinyl protectant

Features and Benefits

- Guards against ultra-violet radiation and prevents cracking, dulling and hardening of vinyl, rubber, plastic and leather.
- Guard makes surfaces anti static; stops build up of surface dust.
- Surfaces treated with Guard retain the “as new” look.

Use Directions

Apply evenly with a soft cloth over the surface; make certain surface is clean and dry.

Caution

- This product will cause slipperiness and should not be used on floors or any other surface where slipperiness may cause hazards.
- Avoid getting the product in the eyes.

Packages
