

Product Information

LIMIT

Laundry Sour

Description

LIMIT represents the very latest in technology offering a safe and environmentally friendly laundry sour, designed to be added to the final rinse to neutralise residual alkalinity and condition the linen for drying and ironing.

At Chemform we care about the environment, our community and your safety by providing environmentally responsible products. The CHEMFORM GREEN range of products provides performance, quality and safety, as well as environmental sustainability by meeting our strict criteria:

- 1. Products containing detergents must use only those classified as readily biodegradable.**
- 2. Whenever possible, products made from plant based renewable resources are selected.**
- 3. Our CHEMFORM GREEN range contains no phosphates, oil-based hydrocarbons, chlorine, chlorinated hydrocarbons, carcinogens, alkyl phenol ethoxylates or heavy metals.**
- 4. Our CHEMFORM GREEN range is safe to use. Products must be classified as non-hazardous and non-dangerous.**
- 5. Industrial degreasers will be quick-breaking according to our stringent definition.**
- 6. Waste will be minimised as we believe that the biggest environmental burden on the Earth is waste. All packaging used in the CHEMFORM GREEN range is recyclable, and can be returned to Chemform for processing.**

If you care about the environment continue to choose CHEMFORM GREEN!

Features and Benefits

- LIMIT is non-hazardous and contains an effective organic acid.
- LIMIT is non-dangerous so it assists in complying with chemical storage regulations.
- LIMIT is phosphate free so is safer for the environment.
- LIMIT is silica free and will not produce insoluble and fabric damaging deposits on linen.
- LIMIT removes residual alkalinity and prevents yellowing.
- LIMIT contains special agents that effectively remove dissolved iron and copper in the water. Iron when present in water causes discoloration of linen. Limit helps prevent this.

Use Directions

LIMIT is designed to be added to the final rinse cycle to neutralise residual alkalinity and condition the linen for drying and ironing.

LIMIT can be dosed manually or automatically by electronic dispensing equipment supplied and serviced by CHEMFORM. The amount of LIMIT used per wash will be calculated and programmed by your CHEMFORM representative.

Safety Information

Refer to our product safety information sheet (PSIS) for more information or consult your Chemform representative for further assistance.

Packages
