

## ODORBAN / ODORBAN PLUS

Odour neutraliser for air atomisation and damp mopping of surfaces

### Introduction

Conventional deodorants are used to disguise bad odours by blanketing or masking them with a fragrance. Odorban is a totally new technology, which actually destroys bad odours.

### Description

Odorban is fragrance free, whilst Odorban Plus contains a fragrance.

### Features and Benefits

- Odorban works immediately to kill dead all bad odours.
- Odorban is totally biodegradable.
- Odorban is made from extracts of Australian plants, many of which are approved additives for food.

### Use Directions

- 1) As Air Freshener  
Do not dilute use as received. Spray directly into the air or in a corner of room for long lasting relief.
- 2) As a surface treatment  
Dilute 100ml of Odorban with one litre of water. Damp mop onto floor or surface.

### Packages

6X750ml cartons (includes two trigger sprays)
