

## PROTECTALL (E)

Emulsifiable rust preventive.

### Description

Protectall (E) is a rust preventative and lubricant formulated to prevent the corrosion of hooks, rollers and gambrels in the Red Meat Industry.

### Features & Benefits

- No flash point. Much safer to use and handle than solvent based products. Eliminates risk of fire.
- Emulsifiable. As Protectall (E) is diluted with water it is more economical than solvent based products.
- Excellent lubrication properties.

### Use Directions

- Stir in 10 litres of Protectall (E) for each 90 litres of hot (70°C) water and continue mixing until a white emulsion is formed.
- Immerse articles in the hot emulsion bath until it reaches the bath temperature.
- Lift articles from bath, allow to drain and then remove and allow to dry in a well ventilated area. A very thin film of oil will remain on article. **Note: Do not rinse.**

### Environmental Statement

- PROTECTALL "E" is detergent free
- PROTECTALL "E" is phosphate free
- PROTECTALL "E" is not hazardous or a dangerous good
- PROTECTALL "E" is chlorine free
- PROTECTALL "E" is VOC free
