

## REFLEX

Multi purpose alkaline cleaner.

### Description

Reflex finds application in all facets of industry. For best results, use the product in warm water. Ensure that cleaned surfaces are rinsed with fresh water. It's most important applications are summarized on page two.

### Features and Benefits

- Reflex does **NOT** contain caustic material and is relatively safe to use.
- Very economical product. A small quantity of Reflex goes a long way.
- Very versatile product. Can be used for a multitude of cleaning tasks – it finds uses in every industry.
- Easy to use – Reflex readily dissolves in warm water.

### Caution

Although Reflex does not contain caustic material, the product is alkaline, and direct contact with the product should be minimised.

| <u>Applications</u>                   | <u>Use Directions</u>   |
|---------------------------------------|---|
| Aluminium vehicle components          | Use at 40g/litre by immersion techniques at bath temperature of 70°C with 2-5 minutes immersion.              |
| Boiler Room                           | For floors, walls and equipment use at 60-80 grams/litre.   |
| Degreasing in food establishments     | Use at 10-30 grams/litre with warm water.   |
| Degreasing equipment and machinery.   | Use at 10-20 grams/litre with warm water.   |
| Floor cleaning (heavily contaminated) | Sprinkle Reflex powder on slightly wet floor. Work in with a stiff broom - allow 2-15 minutes and then rinse. |

| <b>Applications</b>                                     | <b>Use Directions</b>  |
|---|--|
| Floor cleaning (wood, terrazzo, concrete, tiles)        | 10-20 grams/litre with warm water.   |
| Filter cleaning (aluminium type in kitchens).           | 25 grams/litre in warm water.  |
| Garbage containers                                      | 20 grams/litre in warm water.  |
| Hot tank degreasing and decarbonising of ferrous metals | 60-80 grams/litre by immersion techniques at temperature of 70-90°C with immersion time of up to 60 minutes. |
| Laundering overalls                                     | Works particularly well on heavily soiled overalls. Use at 10 grams/litre at 50°C.                           |
| Steam Cleaning  | For all types of machines at 1-20 grams/litre.   |
| Stripping   | Excellent stripper of polishes of vinyl and lino. Use at 20-50 grams/litre with warm water.                  |

### **Environmental Statement**

- REFLEX is readily biodegradable
- REFLEX is chlorine free
- REFLEX uses recyclable packaging
- REFLEX uses waste reduction packaging
- REFLEX is VOC free
