

RESOLVE PLUS

Biodegradable water based degreaser.

Description

RESOLVE PLUS is a powerful degreaser based on natural canola ester and orange oil. RESOLVE PLUS is the product of choice for those organisations wishing to replace hazardous solvents or aggressive alkaline cleaners with natural, renewable products.

Features & Benefits

- RESOLVE PLUS is an extremely effective degreaser. Will remove oils and grease from difficult surfaces such as heavy duty mining equipment.
- RESOLVE PLUS works effectively in salty or hard water.
- RESOLVE PLUS displays good risibility with no slippery surfaces after cleaning.
- RESOLVE PLUS has a neutral pH thereby increasing operator safety.
- RESOLVE PLUS is totally free of hydrocarbon solvents. This eliminates all fire risks from the workplace and makes it ideal for underground use.
- Being solvent free RESOLVE PLUS has no vapors or smell thereby increasing workplace safety and comfort.

Use Directions:

Please note that RESOLVE PLUS may soften paint if it remains in contact with painted surface for extended periods.

- (1) As a heavy duty degreaser
Mix one litre of RESOLVE PLUS with one or two litres of water depending on quantity of oil and grease. Apply to surface, agitate, leave for a few minutes then rinse off with fresh water.
- (2) As a parts cleaning solvent
Use as received.

Environmental Statement

- RESOLVE PLUS is readily biodegradable
- RESOLVE PLUS is not a dangerous good
