

Spa Cleaner

Liquid Spa Cleaner and Sanitiser.

Description

Spa Cleaner contains a superior quaternary ammonium compound which has broad spectrum activity against gram-positive and gram-negative bacteria. The formula also contains a special blend of biodegradable surfactants, water softeners and odour masking agents for the treatment of spa baths in domestic and commercial situations.

Features & Benefits

- Spa Cleaner is effective on body fats, soils, grease and scale removal on surfaces and within pipe work.
- Spa Cleaner is effective in cold water.
- Low foaming, no rinse formula reduces water use.
- Safe to use on acrylic, fiberglass, enamel surfaces and on all pipes, pumps and jet fittings.
- Safe for discharge into septic tanks when used as per recommended dilution rates and applications.
- Can be used as general sanitiser on washable surfaces.
- Non dangerous good which saves money on transport and storage.
- Biodegradable and environmentally friendly.

Use Directions

Do not mix Spa Cleaner with any other chemicals.

As a Spa Cleaner/Sanitiser

1. Fill spa bath with cold water above the jets.
2. Turn on all jets and air.
3. Add 50 to 100mL of SPA CLEANER to the water.
4. Recirculate through jets for 5-10 minutes.
5. Turn off jets/air and completely empty the spa.
6. Wipe down surfaces with a clean damp cloth.
7. Dry the surface with a clean dry cloth.

As a General Cleaner/Sanitiser

Use at 5mL per litre of water and apply to washable surfaces to be cleaned and wipe off with a clean cloth.
