

TRIPLE 8

Heavy-duty, quick breaking degreaser.

Features & Benefits

Triple 8 is a new generation degreaser, which is:

- Solvent free
- Phosphate free
- Quick breaking
- Fully biodegradable

Application

Triple 8 has been formulated especially for degreasing heavily contaminated equipment such as engines, chassis, earth moving equipment, mining equipment and drilling rigs.

Use Directions

Dilute Triple 8 1:5 to 1:100 with water depending on the degree and nature of soiling. Spray onto soil, allow a few minutes for penetration then flush off with high-pressure water.

Caution

Triple 8 contains sodium hydroxide. Avoid contact with skin and eyes.

Packages

25 and 205 litre drums
