

## VORTEX

Heavy duty main wash laundry powder.

### Description

Vortex is a heavy duty, alkaline compound formulated for use in commercial laundries. It can also be used in applications where gross soiling is to be removed; the product is especially suitable for laundering mechanics overalls, industrial rags and abattoir clothing.

### Features and Benefits

- A blend of special surfactants is used which allows fast wetting out and removal of greasy soiling.
- Strong, buffered alkalinity to ensure the rapid breakdown of oil, fat, grease and protein contamination.
- Contains special soil suspending agents to ensure that soils once removed, are dispersed and not redeposited on garments.
- Vortex cleans and brightens in one operation.
- Vortex may be used at temperatures exceeding 65°C without fear of soil redeposition.

### Use Directions

Use 3 scoops of Vortex per 50 kilos load.

For more detailed information, wash program selection and card cutting services consult your Chemform representative.

### Environmental Statement

- VORTEX is inherently biodegradable
- VORTEX contains a scoop for portion control
- VORTEX is labour/energy saving
- VORTEX is chlorine free
- VORTEX uses recyclable packaging
- VORTEX uses waste reduction packaging
- VORTEX is VOC free

Refer to the Environmental Guide section of our website [www.chemform.com.au](http://www.chemform.com.au) for more information.

VORTEX is classified as HAZARDOUS according to the criteria of Safe Work Australia and is classified as a DANGEROUS GOOD according to the Australian Dangerous Goods Code.

Refer to our safety data sheet (SDS) for more or consult your Chemform representative for further assistance

### Packages

25 kilo bags.
