

ZIP STRIP

Bare brick and masonry graffiti remover.

Description:

Zip Strip is the latest graffiti removing technology from the Chemform laboratory. It is a dark brown liquid with a pleasant citrus odour. It is hydrocarbon free and contains a blend of specially selected low odour, low toxicity solvents and activating agents.

Application:

Zip Strip effectively removes graffiti from bare brick, limestone and masonry surfaces. DO NOT use on painted or coated surfaces. For painted or coated surfaces we recommend Mark 4.

It should be used as received and is quick acting.

Features & Benefits

- Low odour, no unpleasant solvent fumes.
- Fast acting, removes all graffiti in 5-10 minutes.
- Slow drying, suitable to use on warm surfaces.
- Free rinsing, requires high pressure water rinse only.
- Ready to use straight from the drum (no diluting required).

Use Directions

Apply Zip Strip to DRY surfaces using a brush or broom. Allow 5-10 minutes contact time, then high pressure rinse off with cold water.

Packages

20 litre drums
