

Safety Data Sheet

LAUNDRY CONCENTRATE OXY

1: Identification of the material and supplier

Names

Product Name: Laundry concentrate oxy
Other Name: Hydrogen peroxide, aqueous solution
Supplier: Chemform Pty Ltd (ABN: 50 008 905 119)
7 Kirke Street, Balcatta, WA 6021
Phone (08) 9344 2455 Fax: (08) 9344 4360
Emergency Telephone: Poisons Information Centre (Australia) 13 1126
Recommended Use: Laundry bleach

2: Hazardous Identification

Statement of Hazardous Dangerous Nature: Classified as hazardous according to the criteria of Safe Work Australia and classified as dangerous goods according to Australian Dangerous Goods Code

Hazard Classification: O Oxidising
C Corrosive

Risk Phrases: R5 Heating may cause an explosion
R8 Contact with combustible materials may cause fire.
R20/22 Harmful by inhalation and if swallowed.
R35 Causes severe burns.

Safety Phrases: S1/2 Keep locked up and out of reach of children.
S17 Keep away from combustible material.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S28 After contact with skin, wash immediately with plenty of water.
S36/37/39 Wear suitable protective clothing and suitable gloves
S45 In case of accident or if you feel unwell, seek medical advice immediately. (Show the label where possible).

3: Composition/Information on Ingredients

| INGREDIENT | CAS NUMBER | PROPORTION |
|-------------------|------------|------------|
| Hydrogen Peroxide | 7722-84-1 | 50% |
| Water | | 50% |

4: First Aid Measures

| | |
|------------------------------|---|
| Ingestion: | If swallowed do NOT induce vomiting. Immediately give a glass of water. Urgent hospital treatment is likely to be needed. For advice, contact a Poisons Information Centre (131126) at once. Never give anything by mouth to an unconscious person. |
| Eye: | If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre (Australia 131 126) or a doctor, or for at least 15 minutes. |
| Skin: | If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. |
| Inhaled: | Remove victim to fresh air. Obtain medical attention immediately. |
| Advice to Doctor: | Treat as for chemical burns. |
| First Aid Facilities: | Eye wash station, running water |

5: Fire Fighting Measures

| | |
|--------------------------|---|
| General Comment: | The substance is non combustible but contact with combustible material may cause fire. In the event of a fire, the product will decompose yielding oxygen which may support combustion. |
| Specific Hazards: | The product will liberate oxygen. |
| Hazchem Code: | 2P |

6: Accidental Release Measures

| | |
|------------------------------|--|
| Personal Precautions: | Evacuate all personnel. Use suitable protective equipment. |
| Spills and Disposal: | Wash area with copious quantities of water. |

7: Handling and Storage

| | |
|--------------------------|--|
| Handling: | Minimise direct contact with product. |
| Storage: | Use only clean, plastic containers when measuring, dispensing or using the product. Do NOT add water to the product. Always add product to water while stirring. Store in a cool and well ventilated area. Keep containers closed ensuring that the lid is a vented lid to prevent build up of pressure. Store away from alkali, caustic, acids, metals and organic peroxides. |
| Hygiene Measures: | Wash hands after handling the product, before eating smoking and using the lavatory and at the end of work. |

8: Exposure Controls – Personal Protection

National Exposure Standards For Hydrogen Peroxide TWA is 1.4 mg/m³

Engineering Controls: Use in a well ventilated area.

Personal Protection:

| | |
|---------------|--------------------------------------|
| Eyes: | Safety goggles and full face shield. |
| Hands: | Nitrile gloves. |
| Skin: | Nitrile rubber boots and apron. |

9: Physical and Chemical Properties

| | |
|--------------------------|--------------------------|
| Appearance: | Colourless liquid |
| Odour: | Sharp, irritating odour |
| pH (Undiluted): | Less than 3.0 |
| Vapour Pressure: | 18mm of mercury at 30°C |
| Vapour Density: | Not available |
| Boiling Point: | |
| Melting Point: | -52°C |
| Solubility: | Totally soluble in water |
| Specific Gravity: | 1.2 (water = 1) |
| Flash Point: | Not applicable |

10: Stability and Reactivity

| | |
|--------------------------------|---|
| Chemical Stability: | The product is stable under normal ambient conditions. |
| Conditions to Avoid: | Avoid extreme heat, high temperatures. |
| Incompatible Materials: | Combustible materials, organic materials, alkalis, metals, reducing agents. |
| Hazardous Reaction: | Will react with alkali to produce oxygen gas. |

11: Toxicological Information

| | |
|---------------------------------|---|
| Toxicology Information: | LD50 (rat) = 1,232 mg/kg |
| Ingestion (acute): | Corrosive if swallowed. Causes severe burns to mouth, throat and stomach. Rapid release of oxygen can cause distension and bleeding of the stomach. |
| Eye (acute): | Corrosive. May cause severe or irreversible eye damage. |
| Skin (acute): | Corrosive LD50 (rabbit): 2.000 mg/m3. |
| Inhalation (acute): | Inhalation of mists or sprays can lead to irritation of the mouth and throat and possible pulmonary oedema. LC50 (rat) 4 hr = 2.000 mg/m3 |
| Chronic Effects (acute): | Long term exposure may lead to dermatitis. |

12: Ecological Information

| | |
|----------------------------------|--|
| Environmental Protection: | Avoid contaminating waterways. LC Oxy is Detergent free, phosphate free, VOC free, chlorine free, uses recyclable waste reduced packaging and uses portion control. |
|----------------------------------|--|

Refer to the Environmental Guide section of our website www.chemform.com.au for more information.

13: Disposal Considerations

| | |
|--------------------------|--|
| Disposal Methods: | Do NOT reuse plastic container. All product containers can be returned to Chemform for recycling. Disposal of this product should at all times comply with requirements of environmental protection and waste disposal legislation as well as requirements by local authorities. |
|--------------------------|--|

14: Transport Information

UN Number: 2014
UN Proper Shipping Name: Hydrogen peroxide aqueous solution
Class 5.1
Subsidiary Risk: 8
Packing Group: II
Special Precautions Ensure all containers are clearly labeled. Keep containers securely sealed, ensure all caps are
For Users vented and stored in a cool, well ventilated space.
Hazchem Code: 2P
IERG Number: 31

15: Regulatory Information

Packaging & Labeling: This product contains a Scheduled Poison (S6) and must therefore be stored, maintained and used in accordance with the relevant State Poisons Act. Defined as a "Dangerous Good" by the Australian Code for the Transport of Dangerous Goods by Road and Rail.

16: Other Information

Prepared By: Brett Amos
Date of Previous Issue: April 2006
Change Made: Full review
