

# SAFETY DATA SHEET

## Quick Break 300L

### 1: Identification of the material and supplier

#### Names

Product Name: Quick Break 300L  
Other Name: Hydrocarbon liquids  
Supplier: Chemform Pty Ltd (ABN: 50 008 905 119)  
7 Kirke Street, Balcatta, WA 6021  
Phone (08) 9344 2455 Fax: (08) 9344 4360  
Emergency Telephone: Poisons Information Centre (Australia) 13 1126

Recommended Use: Quick breaking solvent for degreasing components by immersion or brushing

### 2: Hazardous Identification

**Statement of Hazardous/Dangerous Nature:** Classified as hazardous according to the criteria of Safe Work Australia and classified as non dangerous goods according to Australian Dangerous Goods Code.

**Hazardous Classification:** Xn Harmful

**Risk Phrases:** R22 Harmful if swallowed  
R36, 38 Irritating to eyes and skin  
R65 Harmful: may cause lung damage if swallowed.

**Safety Phrases:** S23 Do not breath spray.  
S24/25 Avoid contact with skin and eyes  
S36/37/39 Wear suitable protective clothing, gloves and eye/face protection.  
S62 If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

### 3: Composition/Information on Ingredients

| INGREDIENT             | CAS NUMBER | PROPORTION |
|------------------------|------------|------------|
| Petroleum hydrocarbons | 64741-44-2 | > 60%      |

### 4: First Aid Measures

**Ingestion (acute):** If swallowed, do not induce vomiting. Wash mouth with water and give a glass of water to drink.  
**Eyes (acute):** Wash eyes to remove material.  
**Skin (acute):** Remove contaminated clothing and wash skin thoroughly with soap and water.  
**Inhaled (acute):** However if mists or sprays have been inhaled remove to fresh air.  
**First Aid Facilities:** Eye wash station, fresh water  
**Long Term Effects:** None known  
**Advice to Doctor:** Product can be aspirated on swallowing or following vomiting and can cause severe and potentially fatal chemical pneumonitis which will require urgent treatment.

## 5: Fire Fighting Measures

|  |   |
|--|---|
| <b>General Comment:</b>                  | Non flammable but combustible. Will burn if involved in a fire. |
| <b>Hazards from Combustion Products:</b> | Carbon monoxide and carbon dioxide                              |
| <b>Extinguishing Media:</b>              | Carbon dioxide, dry chemical, foam, water fog                   |
| <b>Specific Hazards:</b>                 | None known  |
| <b>Hazchem Code:</b>                     | None allocated  |

## 6: Accidental Release Measures

|                             |  |
|-----------------------------|--|
| <b>Spills and Disposal:</b> | Slippery when spilt. Any spillage should be regarded as a potential fire risk. Isolate the spillage from ignition sources. Clean up immediately. Use absorbent material such as soil, sand, attapulgate, vermiculite. Collect and seal in properly labeled drums. Wash area with copious amounts of water. |
|-----------------------------|--|

## 7: Handling and Storage

|                          |  |
|--------------------------|--|
| <b>Storage:</b>          | No special storage and transport requirement. Ensure containers are clearly labeled. Always replace lid after use. |
| <b>Hygiene Measures:</b> | Wash hands after handling the product, before eating smoking and using the lavatory and at the end of work.        |

## 8: Exposure Controls – Personal Protection

**National Exposure Standards** TWA of 10mg/m<sup>3</sup> as liquid hydrocarbons

|                              |  |
|------------------------------|--|
| <b>Engineering Controls:</b> | Use in a well ventilated area, local exhaust ventilation may be required. Avoid generation and inhalation of mists and aerosols. |
| <b>Personal Protection:</b>  |  |
| <b>Eyes:</b>                 | Safety goggles and full face shield.   |
| <b>Hands:</b>                | Nitrile gloves.  |
| <b>Skin:</b>                 | Neoprene, nitrile rubber or natural rubber boots and apron.  |

## 9: Physical and Chemical Properties

|                             |                                     |
|-----------------------------|-------------------------------------|
| <b>Appearance:</b>          | Light brown liquid                  |
| <b>Odour:</b>               | Slight                              |
| <b>pH (Undiluted):</b>      | Not applicable                      |
| <b>Vapour Pressure:</b>     | <0.1 kpa at 20°C                    |
| <b>Vapour Density:</b>      |                                     |
| <b>Boiling Point:</b>       | 150-280°C                           |
| <b>Melting Point:</b>       |                                     |
| <b>Solubility:</b>          | Emulsifiable with water             |
| <b>Specific Gravity:</b>    | 0.86                                |
| <b>Flashpoint:</b>          | >61°C pmc                           |
| <b>Flammability Limits:</b> | Upper value: 5.0%; lower value 0.7% |

## 10: Stability and Reactivity

|                                |  |
|--------------------------------|--|
| <b>Chemical Stability:</b>     | The product is stable under normal conditions. |
| <b>Conditions to Avoid:</b>    | Avoid extreme heat, high temperatures.         |
| <b>Incompatible Materials:</b> | Strong oxidizing agents                        |
| <b>Hazardous Reaction:</b>     | None known                                     |

## 11: Toxicological Information

|                            |  |
|----------------------------|--|
| <b>Ingestion (acute):</b>  | Harmful if swallowed. It may directly enter the lungs if swallowed, or if subsequently vomited. Once in lungs it is very difficult to remove and can cause severe injury or death. |
| <b>Eye (acute):</b>        | Data suggests that the product should present no significant problems.   |
| <b>Skin (acute):</b>       | Irritating to skin.  |
| <b>Inhalation (acute):</b> | May cause irritation to nose and throat and headaches, dizziness and possible nausea.  |
| <b>Chronic Effects:</b>    | None known.  |

## 12: Ecological Information

|                                  |  |
|----------------------------------|--|
| <b>Environmental Protection:</b> | Avoid contaminating waterways.<br>QUICKBREAK is phosphate free, chlorine free, uses recyclable waste reduced packaging water saving, quick breaking, |
|----------------------------------|--|

Refer to the Environmental Guide section of our website [www.chemform.com.au](http://www.chemform.com.au) for more information.

## 13: Disposal Considerations

|                          |   |
|--------------------------|---|
| <b>Disposal Methods:</b> | Disposal of this product should at all times comply with requirements of environmental protection and waste disposal legislation as well as requirements by local authorities. Dispose of via licensed waste disposal carriers. |
|--------------------------|---|

## 14: Transport Information

|                                 |                |
|---------------------------------|----------------|
| <b>UN Number:</b>               | None allocated |
| <b>UN Proper Shipping Name:</b> | None allocated |
| <b>Class</b>                    | None allocated |
| <b>Subsidiary Risk:</b>         | None allocated |
| <b>Special Precautions</b>      | None allocated |
| <b>Hazchem Code:</b>            | None allocated |

## 15: Regulatory Information

|                                   |  |
|-----------------------------------|--|
| <b>Packaging &amp; Labelling:</b> | This product contains a Scheduled Poison (S5) and must therefore be stored, maintained and used in accordance with the relevant State Poisons Act. Defined as a "Non Dangerous Good" by the Australian Code for the Transport of Dangerous Goods by Road and Rail. |
|-----------------------------------|--|
