Chemform: Who are we?

Established in 1978, Chemform is a family-owned and operated Australian cleaning chemical manufacturer.

Over our long history, we have established a reputation for delivering quality products and excellent service. We are agile, proactive and able to service customers' needs of any size. Traditional cleaning chemicals proved dangerous for both the user and the environment. At Chemform, we developed a vision; to create non-dangerous but equally effective chemicals. Our chemists began to investigate scientific technology that could produce safer alternatives. After rigorous testing and innovation, we introduced a range of safe and environmentally responsible cleaning products.

The Chemform Green range of chemicals are non-dangerous, use plant-based renewable resources where possible and minimise waste. Chemform Green products must also adhere to other stringent criteria; visit our website for further details.

Our extensive range of Chemform Green products are available for a wide spread of applications across many industries.

If you care about the environment, choose Chemform Green.

Leading the way in Sustainable Manufacturing & Quality Assurance

Fundamental to our business is best practice and continual improvement in sustainable manufacturing and quality assurance. Our customers can feel confident that they are partnering with a responsible organisation. We have achieved a number of third-party quality management and environmental accreditations including:

We strive to ensure our customers utilise their products in a *sustainable, safe, efficient, compliant* and *cost effective manner*. As such, we offer a diverse range of *services* to *guarantee* we achieve this goal.

Site Survey & Reporting

Audit Reports

Safety Information (SDS, Info Sheet, Safety Wall Chart etc.)

Safe Work Procedures

Chemical Storage & Transport Compliance

Technical Support

Equipment Installation & Maintenance

Chemform eLearning

Online Safety Induction:

The Chemform safety training course has been developed to ensure our customers understand how to identify and handle hazardous substances.

Visit www.chemform.com.au/training

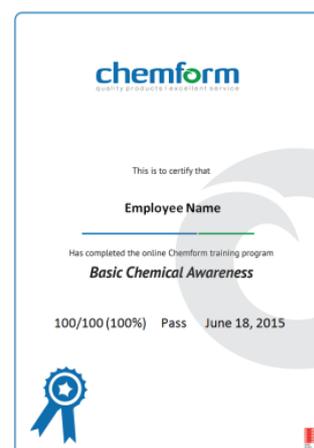

The course has been designed to provide competency in the following areas:

- Determine whether a chemical is hazardous or dangerous.
- Determine the personal protective equipment necessary for handling a given chemical.
- Identify health and hazard information.
- Know the location of Safety Data and Product Information Sheets at your site.
- Understand the general rules for using chemicals.
- Know the basic first aid procedures for chemical contact.
- Know how to manage and clean up a chemical spill.

Once the final question has been submitted, a report and certificate are automatically generated. Both can be downloaded and/or printed. Also, a report will be sent to the email address entered during registration.

Online Training Videos:

Chemform have a range of videos that have been designed to help end users understand how to better use products and systems. All videos can be found on our website or YouTube Channel: <https://www.youtube.com/channel/UC4Of4rBuW1iqXC03RYazcYg>

We have been supplying cleaning chemicals, systems and solutions to the Hospitality industry for many decades and have become respected market leaders over this time. Our team is made up of experienced industry specialists who understand your unique needs and exactly how to achieve optimum hygiene, cleanliness and workplace efficiencies.

We understand our Hospitality customers are extremely busy, whether it's the lunch rush or a special function. With this in mind, we have developed a range of products and cleaning processes that are effective, cost efficient and easy to use. Plus, we offer a large range of Chemform Green products specifically formulated for the Hospitality industry.

The core product ranges outlined within this catalogue include:

Hand Hygiene

Cleaner Disinfectants

**General Cleaners/
Detergents**

Glass Washer

Washroom

Laundry/Linen

Kitchen

**Specialised
Products**

**Consumables &
Sundries**

Hand Hygiene

Good hand hygiene is essential to help reduce the spread of dangerous infectious diseases.

The core principals to remember include:

- Wash your hands for at least 20 seconds regularly (recommended every hour) with soap and water, including before and after eating and after going to the toilet.
- Wash your hands for at least 20 seconds before handling food and after handling items another has used. eg: clearing a table.
- Hands of people handling food should be kept clean at all times and nails should be kept short, clean and unpolished.
- Cuts or wounds on the hands of people handling food should be completely covered by suitable waterproof band aids, dressings or gloves.

Attention Food Handlers

Food handlers should correctly wash their hands for at least 20 seconds:

- before you begin work
- before the handling of food
- after handling raw food
- after going to the toilet
- after sneezing, coughing, eating, drinking, smoking or blowing their nose
- after handling soiled equipment and/or utensils
- after touching their mouth, hair, nose, ears or any other parts of their body
- after engaging in any activities that may contaminate their hands. (e.g. cleaning and sanitising duties, handling cash, removing waste etc.)

Products featuring the Chemform Green logo are part our stringent Green range.

- ✓ Classified as a non-dangerous good according to the Australian Dangerous Goods Code.
- ✓ Whenever possible, products made from plant based renewable resources are selected.
- ✓ No phosphates, oil-based hydrocarbons, chlorine, chlorinated hydrocarbons, carcinogens, alkyl phenol ethoxylates or heavy metals.
- ✓ Products containing detergents must use only those classified as readily biodegradable defined by AS 4351 or OECD test methods.

Hand Hygiene Dispensers
Ideal for soap or hand sanitiser

**Refillable pump packs available -
250mL, 450mL & 500mL Liquid or Foam.**

Chemform *Touch Free Deluxe (CTFD)*

- Touch Free
- White
- 1000mL capacity
- Refillable liquid or foam pod
- Excludes batteries (AA required)
- Floor stand available (1.5m high)

Pre-order
Stocks arriving soon

Liquid

Foam

1.5m H

Pure Skincare Manual Dispensers

- Manual pump
- White or silver
- 1000mL capacity
- Refillable liquid or foam pod. 3 x 1L sealed pods available for Pure Skincare Foam Hand, Hair & Body Wash and Pure Skincare Alcohol-Free Sanitiser.

Pre-order
Stocks arriving
soon

Chemform *Touch Free Desk Top (TFD)*

Foam TFD

- Sensor infrared technology: the smart motion infrared sensor pump provides a hands-free, no-touch experience.
- Two dispenser volume level: 0.5ml & 1mL.
- Fashion designed: fitting easily into any decoration style, including commercial places such as hotel, club, restaurant, clinic, school etc.

Unit Size: 80mmL x 125mmW x 183mmH
Unit Weight: 305 grams
Volume: 280mL
Power Supply: 4x“AAA”batteries required.

Liquid TFD

- Battery-top design: with battery compartment built in top to protect your automatic soap dispenser from being soaked or moistured by water, more durable and easy to replace battery.
- IPX4-water proof & anti-leakage ABS material: resistant for high quality performance.
- Three adjustable soap dispensing level: 1.5ml, 3ml, 4.5ml can be optional.

Unit Size: 84mmL x 110mmW x 240mmH
Unit Weight: 332 grams
Volume: 350mL
Power Supply: 4x“AAA”batteries required.

Chemform *500mL Stand Holder (500SH)*

Pre-order
Stocks arriving
soon

- Floor Stand designed to hold Chemform's 500mL hand sanitiser bottles.

HAND WASHING PROCEDURE

 Duration of hand wash procedure (steps 2-7): 20 seconds

Wet hands with water.

Apply enough soap to cover all hand surfaces.

Rub hands palm to palm.

Right palm over left dorsum with interlaced fingers and vice versa.

Palm to palm with fingers interlaced.

Backs of fingers to opposing palms with fingers interlocked.

Rotational rubbing of left thumb clasped in right palm and vice versa.

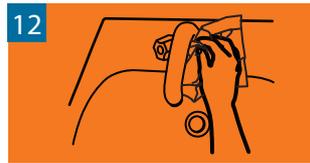

Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.

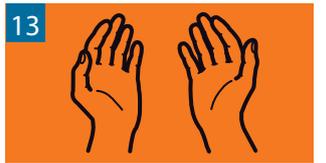

Rinse hands with water.

Dry hands thoroughly with a single use towel.

Use towel to turn off faucet.

Your hands are now safe.

HAND SANITISATION PROCEDURE

 Duration of the entire procedure: 20-30 seconds

Apply a palmful of the product in a cupped hand,

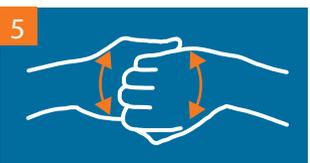

Rub hands palm to palm.

Right palm over left dorsum with interlaced fingers and vice versa.

Palm to palm with fingers interlaced.

Backs of fingers to opposing palms with fingers interlocked.

Rotational rubbing of left thumb clasped in right palm and vice versa.

Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.

Once dry, your hands are safe.

ODOUR & STAIN DIGESTER

ODOUR & STAIN REMOVER

Enzyme based deodoriser, cleaner and stain remover. A multipurpose product that is ideal for a range of hard & soft surfaces including toilets, washrooms, carpets, upholstery, mattresses, tiles, grout, pavement, fabrics, cotton & linen. Excellent for destroying the bacteria, removing bad odours including urine, vomit, pet and cigarette.

URINE
REMOVER

Size
5L

SMELLY URINAL TROUGHS (WATER OR WATERLESS)

BIOBLOCKS

BIOBLOCKS have been specially designed to clean and reduce odour problems associated with urinals. Each BIOBLOCK contains in excess of 3 billion pro-active bacteria (a species of 'probiotic' live bacteria) - they digest uric salts, sludge and uric deposit build-ups, eliminating the source of unpleasant odours rather than just masking them. These beneficial new strains of bacteria colonise the urinal pipes and degrade the body solids, calcium and urine crystals, keeping pipes clear and free of odours.

Size
5kg

CAGED BIO BLOCKS

Caged urinal blocks with pro-active bacteria technology to eliminate odours. Suitable for use in all types of water & waterless urinals, stainless steel, porcelain and ceramic troughs. BioBlocks strains of bacteria colonise the urinal pipes and degrade the body solids, calcium and urine crystals, keeping pipes clear and free of odours.

Leaves washrooms with a fresh, long-lasting fragrance.

Size
1 tub (20 cages)

Utilise any of Chemform's suite of *powerful 2-in-1 Cleaner Disinfectants*. These products have been specifically formulated to clean and *kill dangerous germs* and leave the area *clean and fresh!* Ideal for hard surfaces in your washroom.

Laundry/Linen

LAUNDRY POWDER & DISINFECTANT

ENVIROCARE

One shot laundry concentrate powder. Meets the performance criteria of AS/NZS 4146:200 for chemical disinfection in laundries, even at temperatures as low as 20°C.

Size
10kg

5L
20L

NON CAUSTIC OVEN CLEANER

Non caustic, eco-friendly oven, fryer, grill and hot plate cleaner. Does not contain caustic products, solvents or other volatile compounds.

Size
5L

KITCHEN FOOD SURFACE SANITISING

All items that come into contact with food must be effectively sanitised.

NO RINSE SANITISER #9

High performance no rinse sanitiser. Ideal for sanitising kitchen benches etc. No Rinse Sanitiser #9 is a superior quaternary ammonium compound. No Rinse Sanitiser #9 is safe to use on food processing equipment, utensils and food contact surfaces and articles before contact with food, when the product is diluted with potable water and used in accordance with label directions. Reference FDA CFR21 178.10.10

Safe for septic tanks and sewerage treatment plants, will not affect aerobic activity in industrial settling ponds and will not be detrimental to marine life when used in accordance with label directions.

Size
750mL
5L
20L

Want to validate your cleaning process?

The Clean Trace Swab can detect protein residues and is ideally suited for use in the hospitality, meat, fish, dairy and catering industries. Results are based on the detection of protein residues left from improper cleaning and are generated within 30 seconds of swabbing.

Kitchen Food Surface Sanitisation

PROCEDURE CHART

Cleaning and sanitisation procedure chart for food preparation surface areas.

Clean - Detergent or Degreaser Pre-clean: Step 1

Step 1: Surfaces must be thoroughly cleaned prior to sanitising with a detergent or degreaser. Rinse with clean potable water. Leave hard surfaces to air dry.

Ideal products: *Hard Surface Cleaner #15, HD Cleaner #10, Red Barron, Sapphire Spray & Wipe #1 & Elbow Grease.* Follow label directions.

Sanitisation Step 2

Step 2: Spray onto surface. No need to wipe down. Allow to air dry. No Rinsing Required.

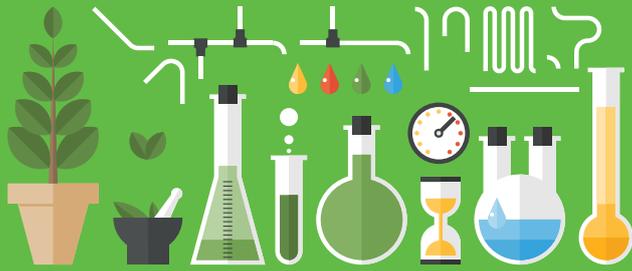

Ideal products: *No Rinse Sanitiser #9.* Follow label directions.

Chemform's No Rinse Sanitiser is safe to use on **Food Contact Surfaces & Food Utensils and Equipment (e.g. dishes, cutlery, slices etc.)**. Refer to product information sheet for more information.

Note: If you are diluting a concentrated No Rinse Sanitiser into a spray bottle; To ensure optimum efficacy, only prepare diluted solutions with potable water in clean, dedicated spray bottles. Dirty or contaminated spray bottles will reduce the performance. This does not apply to Ready To Use (RTU) version of the product.

Specialised Products

CREAM CLEANSER

MAGNUM

Magnum is an all-purpose cream cleanser containing a mild abrasive which can be used in kitchens, bathrooms and housekeeping areas.

Magnum may be used safely for cleaning stainless steel, aluminium, enamel, porcelain, plastic and painted surfaces.

Size
750mL
5L

POWERFUL AIR FRESHENER

ODORBAN PLUS

Odour neutraliser and air freshener. Works immediately to kill bacteria that cause bad odours. Safe to use on all surfaces including fabrics, carpets, etc. Suitable for use in toilets/ablutions, garbage disposal areas, rubbish bins, drains, animal houses etc.

Size
750mL

ODOUR NEUTRALISER & DISINFECTANT

ODORSAFE

Surface disinfectant and odour neutraliser. Conventional deodorants or masking agents are used to disguise odours by "blanketing" them with a fragrance. Odorsafe is totally new technology which actually destroys or neutralises. Odorsafe is suitable for use in toilets, washrooms, food and garbage disposal areas, rubbish bins, drains, animal houses and other areas that require disinfection and where odours are a problem.

SMELLY BINS

Size
5L

DRAIN CLEANER

NEOZYME

Bioactive fat, oil and grease treatment ideal for smelly drains. Cost effective solution that can be used to degrade a variety of fats, oils, greases and complex protein based solid and liquid wastes.

Eliminates the cause of the odour rather than simply masking odours. Eliminates solid build ups, blockages and downstream transfer of fats, oil and grease.

SMELLY DRAINS

Size
5L

BLEACH TO CLEAN & SANITISE

DESTAINER #13

Thickened bleach - removes dirt, mould, stains and kills germs. Combines in a single product, a cleaner and chlorine disinfectant. Surfaces treated with De-Stainer 13 are left clean and germ free.

Excellent cleaning properties enable De-Stainer 13 to cut through difficult soils and stains, particularly effective in removing unsightly fungus and mould.

Size
750mL
5L
20L

STAINLESS STEEL POLISH

SSP

Stainless steel polish. Oil based, SSP provides a very efficient one-step method for polishing and protecting stainless steel surfaces.

As SSP leaves an invisible protective film on surfaces, it repels fingerprints and reduces the need for frequent cleaning.

Leaves a shiny gloss long after application.

Size
5L

ONE-WAY DRAIN VALVE

GREEN DRAINS

and has been developed to help prevent pathogens, gases, odours, drain flies and pests etc. from escaping drains. Green Drains is a one-way valve that has watermark approval as well as a number of other worldwide accreditations.

Plumbing systems along with open and exposed drains are potential sources for contamination that provide a hospitable habitat for waterborne pathogens, especially for Legionella. The Green Drain reduces exposure to hazardous sewer gases and disease causing pathogens that harbor within drain lines and plumbing systems. **Visit www.chemform.com.au/green-drains for more information and to watch our video.**
